

Your own “postal consultant” can help you save hundreds of dollars every month!

PC Solutions

Eliminates or reduces charges for Delivery Confirmation

Receive postage incentive savings by using pre-printed USPS labels or print to your printer using Avery labels

Postal Consultant software is an Internet-ready, USPS-approved, “mini-post office” that works right on your own desktop using a non-dedicated PC!

- Provides Delivery Confirmation and Signature Confirmation for Priority Mail and Parcel Post
- Automatically track and trace the E-Certified service from the USPS
- Complete USPS rates
- USPS International rates, including the International Mail Manual

It's a “mini-post office” right on your desktop

HASLER

Postal Consultant... a "mini-post office" right on your desktop

With Postal Consultant's Level Two option, postage accounting is added for unlimited accounting. Three-level reports are available — extremely useful, for example, in "Client/Attorney/Matter" billing in law firms.

Priority Mail is the smart way to mail

Using Priority Mail with Delivery Confirmation, Postal Consultant will track your mail and help you avoid extra service fees.

Accounting for Priority Mail

Use Postal Consultant to link to the USPS' Delivery Confirmation service.

With Postal Consultant's Internet connection, you can find out instantly where and when your Priority Mail and parcels were delivered.

- Extra service fees are eliminated
- USPS rates and routing information are available
- Manifest and postage statements for mixed mail can be printed

Postal Consultant Level Three option prints Form 3877, "Firm Mailer Book," so there is no longer a need for tedious and error-prone manual entry detailing charges for Certified Registered, Insured, and other special services.

Hasler Products and Services

- Mailing Systems
- Folding and Inserting
- Postal Scales
- Mail Center Management
- Postal Accounting
- Mail Sorting and Tracking
